

## PROGRAM OVERVIEW:

- Carramar Education has devised the EPP program that supports health practitioners by increasing their knowledge of professional obligations, while teaching them skills to manage and sustain behavioural change.
- We provide tailored professional development programs for both groups and individual health practitioners, and offer flexible delivery options.
- Preparation for workshop delivery is done in conjunction with the individual participant or organisation and key concepts are contextualised to the specific practice setting (i.e. acute/hospital, aged care or community settings).
- Selected modules are tailored for the identified learning needs and we use real life examples to contextualise the content. Reference is made to the relevant standards, codes and guidelines and expert input is sought to inform and deliver the workshop activities and scenarios.

## KEY TOPICS:

All participants complete the Core Module: Legislation, standards, and professional practice, then undertake one or more of the following module options, according to the requirements:

- Communication
- Consent
- Cultural Awareness
- Ethics
- Managing Performance
- Medication Management
- Professional Boundaries
- Record Keeping
- Scope of Practice
- Working in Inter-Professional Teams

If you are interested in a topic that is not included in the list above, please contact us to discuss your specific learning needs.

## WHAT OUR PARTICIPANTS SAY ABOUT THE COURSE:

*"I have thoroughly enjoyed today and looking forward to implementing the new skills in my practice"*

*"The facilitator was extremely non-judgemental and helped me feel at ease when my anxiety levels were high"*

*"Overall very useful insights to take back to my workplace"*

## WHY CARRAMAR EDUCATION?

Carramar Education provides education services to the health, human services and aged care sectors. We have developed a well-earned reputation for being reliable, professional and client-focused, while consistently delivering to client expectations.

We deliver nationally recognised training courses and professional development programs to meet the CPD requirements of health practitioners.

## CONTACT US:
